

AVINASH SHARMA

Full Stack MERN Developer | Software Developer

Jaipur, Rajasthan, India | [+91 9664007889](tel:+919664007889) | itsavinash0@gmail.com | avinashx2.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and delivering production-grade web applications, SaaS platforms, ERP systems, CMS solutions and Windows desktop applications. Proficient across React.js, JavaScript (ES6+), Node.js, Express.js, PostgreSQL and MongoDB, with practical experience building REST APIs, integrating Java backend services, and implementing JWT/OAuth/OTP authentication and role-based access control. Skilled in real-time features with Socket.IO, payment integrations with Razorpay, reporting systems and responsive, performance-optimized interfaces. Experienced in translating business requirements into scalable production solutions and resolving live application issues.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Vite, Bootstrap, Material UI, Redux Toolkit, Context API, Responsive Design, Framer Motion, GSAP, Lenis, Swiper

Backend & API Development: Node.js, Express.js, REST APIs, JWT Authentication, Java Backend API Integration, FastAPI, OAuth, OTP Authentication, Middleware, API Validation, Error Handling, Nodemailer

Databases: PostgreSQL, MongoDB, Mongoose, SQL, MySQL, Sequelize, Database Design, CRUD, Indexing, Aggregation

Real-Time & Integrations: Socket.IO, Razorpay, Multer, Third-Party API Integration

Reporting & Data Processing: Recharts, jsPDF, AutoTable, ExcelJS, SheetJS/XLSX

Tools & Deployment: Git, GitHub, Postman, Vercel, PWA, Electron, Electron Builder, NSIS

Architecture & Practical Skills: Role-Based Access Control, Protected Routes, Authentication & Authorization, File/Media Uploads, Pagination, Search & Filtering, API Error Handling, Performance Optimization, Lazy Loading, Code Splitting, Multi-Tenant Architecture, CMS Development, ERP Development, PWA Development, Desktop Application Development

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Uddan Promotions Pvt. Ltd.

Apr 2026 – Present

Jaipur, Rajasthan, India

- Developed and maintained production-grade React.js/Vite/Tailwind CSS applications and Node.js/Express.js backend systems with reusable architecture, responsive UX and reliable production behavior.
- Contributed across SaaS, ERP, CMS, analytics, licensing, payment and real-time workflows on NirmanX, GetViralNews, Indeora Voyages, Uddan corporate/CMS systems and Uddan Pro Extractor.
- Implemented JWT/OAuth/OTP authentication, role-based routing, protected routes, file/media uploads, API validation and reusable error-handling patterns.
- Integrated PostgreSQL and MongoDB-backed REST APIs, Java backend services, Razorpay, Socket.IO and reporting libraries while optimizing loading performance and code splitting.

Full Stack Developer Intern — Site Worx Infotech

Feb 2025 – Jul 2025

Jaipur, Rajasthan, India

- Built responsive React.js and Tailwind CSS interfaces, Node.js/Express.js backend features, REST API integrations, database workflows and real-time chat functionality.
- Collaborated through Git/GitHub, performed QA/testing and resolved UI and API issues prior to release.
- Led and coordinated interns on the DC Keepers project by assigning tasks, reviewing progress and supporting timely delivery.

PROJECTS

NirmanX — Construction Management & Workforce ERP Platform | [Live](#)

Tech: React.js, Vite, Tailwind CSS, Node.js, Express.js, PostgreSQL, Sequelize, JWT, OTP Authentication, Socket.IO, Razorpay, Nodemailer, ExcelJS, jsPDF, PWA, Electron

- Developed a full-stack ERP for project management, workforce, GPS attendance, inventory, procurement, payroll and accounting.
- Implemented multi-role JWT authentication, material approval workflows, real-time location tracking with Socket.IO and Razorpay subscriptions.
- Built PDF/Excel reporting, PWA support and a packaged Electron desktop application.

GetViralNews — Multi-Tenant News Publishing SaaS | [Live](#)

Tech: React.js, JavaScript (ES6+), Tailwind CSS, Node.js, Express.js, PostgreSQL, REST APIs, JWT, Middleware, PWA

- Developed a scalable multi-tenant news publishing SaaS with Super Admin and Tenant Admin systems.

- Built news, categories, reporters, themes, media, advertisements, polls, E-Paper and subscription modules with permission control.
- Implemented dynamic tenant branding, protected features, PWA functionality and frontend performance optimization.

Indeora Voyages — Travel CMS & Booking Website | [Live](#) | [Demo](#)

Tech: React.js, Vite, JavaScript (ES6+), Tailwind CSS, Framer Motion, Node.js, Express.js, PostgreSQL, REST APIs, JWT, Multer

- Developed a CMS-driven travel platform covering destinations, yoga retreats, blogs, itineraries, FAQs and quotation requests.
- Built reusable responsive sections, dynamic media, sliders, animations and SEO-controlled Admin/Superadmin modules.
- Integrated REST APIs and improved media loading, API error handling and production performance.

DocOrbit — Healthcare Management & Super Admin Platform

Tech: React.js, Vite, Tailwind CSS, Framer Motion, Recharts, jsPDF, AutoTable, REST APIs, Java Backend API Integration

- Developed the React.js frontend integrated with Java Backend APIs for clinics, doctors, patients, appointments, subscriptions and employees.
- Implemented role-based protected modules, searchable/paginated tables, reports, loading states and responsive dashboards.
- Generated operational PDF reports using jsPDF and AutoTable.

Uddan — Corporate Website & Content Management Platform | [Live](#)

Tech: React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, REST APIs, JWT, Multer, Nodemailer, Framer Motion, GSAP, Lenis, Swiper

- Developed a full-stack corporate website with a secure Admin CMS for services, projects, blogs, careers, FAQs and testimonials.
- Implemented REST APIs, JWT authentication, PostgreSQL workflows, media/document uploads and recruitment functionality.
- Integrated Nodemailer and built responsive animated experiences using Framer Motion, GSAP, Lenis and Swiper.

E-Commerce Web Application (MERN) | [Live](#)

Tech: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT, Middleware, CRUD, Razorpay

- Developed a complete MERN e-commerce platform with product, order and user management.
- Implemented JWT authentication, role-based access, CRUD operations and protected Admin functionality.
- Integrated Razorpay for payment processing.

Uddan Pro Extractor — Google Maps Lead Extraction & Licensing Desktop App

Tech: React.js, Vite, Electron, Electron Builder, NSIS, Recharts, SheetJS/XLSX, jsPDF, AutoTable

- Developed a Windows desktop application for extracting and managing Google Maps business leads.
- Built filtering, pagination, analytics, duplicate detection and Excel/PDF export functionality.
- Implemented offline machine-bound licensing, key generation, activation history and a Windows x64 installer using Electron Builder and NSIS.

DC Keepers — Cloud Services Platform | [Live](#)

Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, CRUD, Git, GitHub, Vercel

- Developed responsive React interfaces and reusable frontend components for a cloud-services platform.
- Integrated Node.js/Express REST APIs and MongoDB-backed data workflows.
- Collaborated via Git/GitHub and handled production deployment using Vercel.

Personal Portfolio Website | [Live](#)

Tech: React.js, Tailwind CSS, Responsive Design, Vercel

- Developed a responsive personal portfolio to showcase technical skills, experience and projects.
- Created reusable React components and optimized layouts for desktop, tablet and mobile devices.

Kaleo — Ranch Retreat Website | [Live](#)

Tech: React.js, Tailwind CSS, Framer Motion, GSAP

- Developed a storytelling-focused responsive website with clean visual hierarchy and smooth interactions.
- Optimized the website for desktop, tablet and mobile experiences.

EDUCATION

Bachelor of Science (B.Sc) — Pursuing (2nd Year)
